# Trouble getting information?

## MCHP-news

MCHP-partners had a lot of trouble acquiring information.

Petten, April 2005. MCHP partners had a lot of trouble getting entries to the database of MCHP. Several parties have been consulted and the information on the Internet is so skinny that partners fear for an thunderstorm. According to some partners it would be good to establish a network where the interested parties fill themselves their own data. The database will be ready by the end of June.

167 entries so far from **14** partners (27)

# MicroCHeaP - Work package 3

## Database structure

- Three types of organisations:

A. Academic

B. Research (NGO)

C. Commercial

- 6 types of entries, related to: Credentials, CHP research, Energy conversion type, Energy source, Facilities & References

- 33 different countries

Structure approved?

# MicroCHeaP – Status

## Organisations type A (Academic)

43 entries from  
countries shown

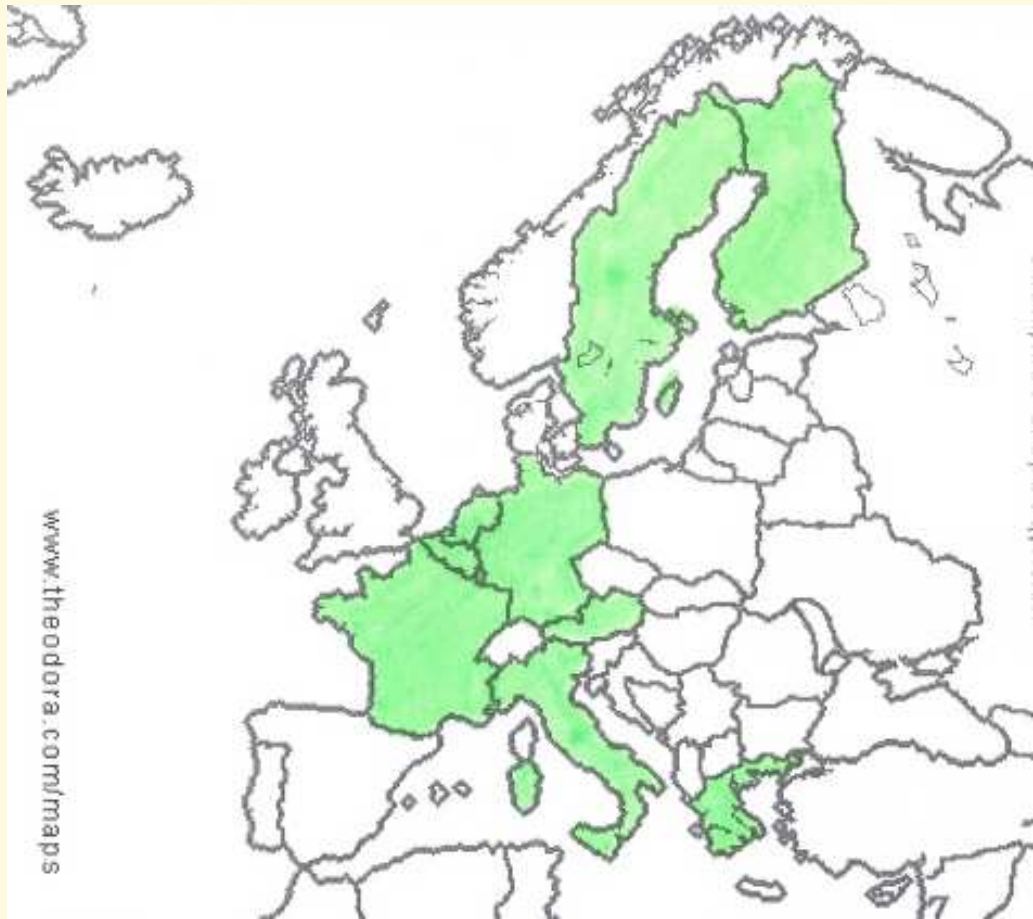

Missing from EU:

Belgium, Ireland, France,  
Norway, Portugal and  
the former East-  
European countries

# MicroCHeaP – Status

## Organisations type B (Research - NGO)

18 entries from  
countries shown

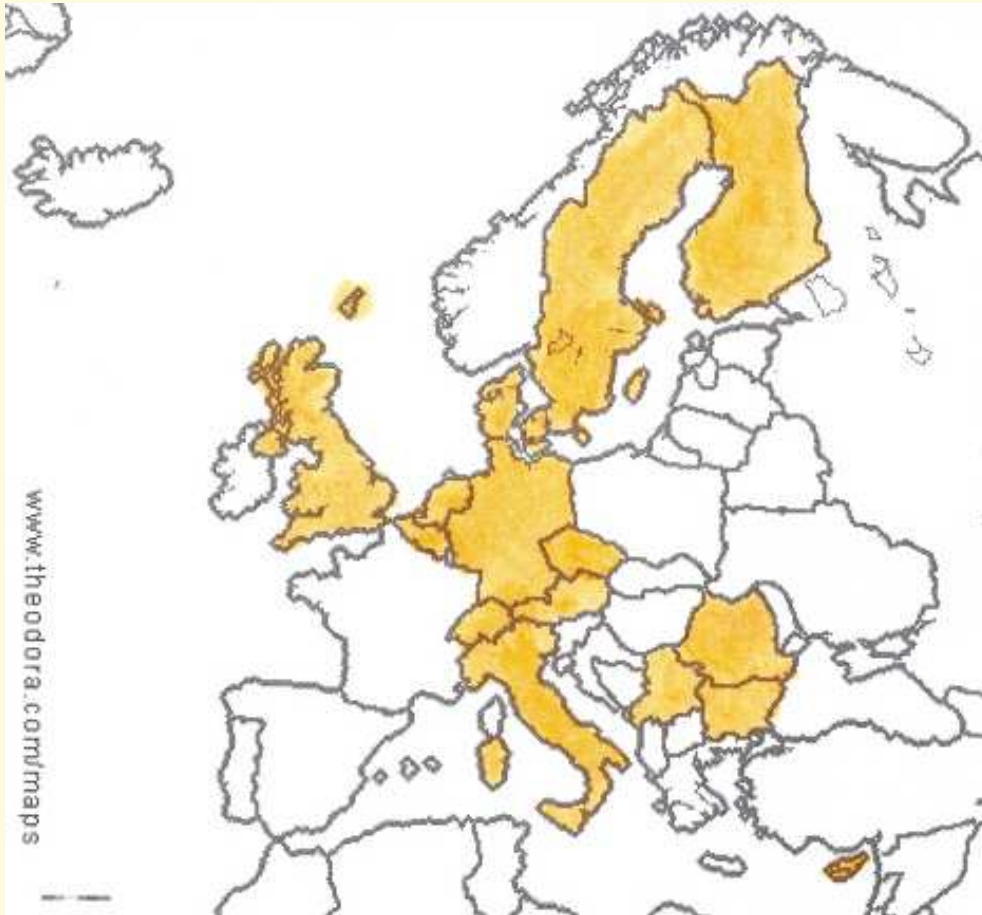

Missing from EU:

Denmark, Ireland,  
Norway, Portugal, Spain,  
UK and the former East-  
European countries

# MicroCHeaP – Status

## Organisations type C (Commercial)

106 entries from  
countries shown

Missing from EU:

France, Greece, Ireland,  
Norway, Portugal, Spain  
and the former East-  
European countries
